Free Rigging Promotion

4/5/12

## Yamaha Announces free Gauges and Controls

Yamaha Motor Australia is pleased to announce the launch of a new promotion designed to deliver great benefits on big horsepower engine purchases over the coming months.

*Yamaha's three gauge LAN set provides the operator with a variety of accurate information.*

Yamaha is offering free premium LAN gauges and controls on four stroke engines from F80B to F300B \*. This great offer gives customers over \$900 worth of extra value on engines from F80B to F200C and over \$2000 worth of value on Yamaha's class leading 4.2L V6 range.

"Although the colder months will soon be upon us, now is the perfect time for customers to take advantage of this amazing deal and make a move on that boat package they may have been considering over the summer months," said Iain MacLeod, National Sales Manager for Yamaha Outboards in Australia. "It also presents a perfect opportunity to take an existing boat off the water for an engine upgrade, without missing out on the peak boating season."

For customers in the north of the country this is also a great chance to get set up for the dryer boating weather.

The promotion includes Yamaha's premium three gauge LAN set which offer customers great features

*Yamaha's free gauges and controls promotion offers F80B - F200C customers over \$900 worth of extra value and on F225F to F300B over \$2000 of extra value.*

and benefits. Yamaha's LAN gauges are rich with engine monitoring features with displays that can be customised to suit the individual operator.

Reading information directly from the engines ECU allows the gauge system to display incredibly accurate fuel flow information as well as a full range of engine diagnostics not possible on other systems. LAN gauges are capable of displaying service interval reminders as well as engine warning information, in the unlikely case of an operating issue, allowing the operator to take steps to address the problem and get home safely.

The LAN gauges also have the ability to connect to a variety of peripheral devices such as GPS units for added accuracy and integration into the electronic setup of the boat.

Yamaha's "Free Gauges and Controls" promotion is available at participating dealers and will run until the end of July. For full terms and conditions please visit the Yamaha website [www.yamaha-motor.com.au](http://www.yamaha-motor.com.au) or visit your local authorised Yamaha outboard dealership.

\* Standard rotation only. Excludes F150B models.
